

Lock Options

You can choose from:

1. UL Listed Group 2 Combination Lock.
2. UL Listed Group 1R Manipulation-proof Combination Lock.
3. UL Listed Group 1R Self-Powered Mas-Hamilton X-09 Lock. Features three modes of operation, including dual responsibility, providing 500 billion possible combinations. All dimensions are industry standard and will retrofit Group 1 and Group 2 mechanical locks.
4. UL Listed Group 2 Electronic Lock. Features an electronic lock's master code; you can easily control who has access by adding, deleting, or changing up to eight different user codes. The file locks automatically each time the drawer with the electronic lock is closed. A six-button combination opens the lock in five seconds or less. One million possible combinations makes it virtually unpickable.

- You Choose Arrangement

In the diagrams above the darker circles represent digital or dial combination locks where the lighter circles represent key locks. E-Locks are available for Protection Plus Files.

Note that Safe-in-a-File models may have key or e-lock options installed in regular drawers, but outer safe door is key locked only and safe-in-a-file inner safe door is dial combination lock only.
